One day, a lion is sleeping. A mouse runs over the lion's nose and the lion wakes up. The lion is angry. The mouse is scared. "I'm very sorry," says the mouse. "Don't eat me! I can help you one day."

The lion laughs. "That's funny!" it says. "You are little! How can you help me?" But the lion is not angry now. The mouse runs away.

One year later, the lion is walking in the jungle. A big net falls over the lion. The lion opens its mouth and roars. The mouse hears the lion and it runs to help. "I can help you," says the mouse. ## LLAMAS

Farmers keep different animals for different uses. They keep sheep for their wool and meat, and they keep cows for their milk and meat. They keep pigs and turkeys for their meat, and they keep chickens for their eggs. But some farmers keep more unusual animals, too.

Llamas are becoming popular farm animals these days because they are friendly animals and they are very useful. Llamas have long legs, long necks, and small heads. They have wool coats. People can use llama wool to make clothes and blankets. Llamas can also carry things, and they make very good guard animals. Llamas protect groups of other animals, like sheep or pigs. Llamas eat grass, just like sheep and cows. They like people and other animals, so they are great animals to have on a farm.

## Monsters University

Monsters University is a comedy movie by Pixar, and now you can watch it on DVD!

The characters in Monsters University are funny monsters. They're 3D computer animations, but real actors play their voices.

In the movie, Mike is a six-year-old monster. He lives in the monster world. One day, he visits a company called Monsters Inc. Lots of monsters work there. The monsters visit the human world at night. They scare children and they use the children's screams to make energy! Mike wants to be a scary monster when he grows up. When Mike is a teenager, he goes to Monsters University to learn how to be scary. He meets Sulley, but they are not friends at first. Sulley is very good at scaring people, but Mike is not very scary at all. One day, Mike and Sulley go to the human world and they can't get back. They work together, and finally go home to the monster world. Now Mike and Sulley are friends. They get jobs at Monsters Inc., and they have fun working together.

Monsters University is very funny, and the actors' voices are fantastic. There's lots of cool music in the film, too. I love the song "Monsters University." The monsters are terrible singers, but the song is great!

Monsters University is lots of fun. Don't miss it!

Carl, aged 9

Foods made from wheat, rice, or other cereal grains are grain foods. Some examples are bread, pasta, and breakfast cereals. Grains give us energy so that we can be active all day.

### Dairy

Milk, yogurt, cheese, cream, and butter are dairy foods. Dairy foods help to keep your bones and teeth strong.

### Meat and fish

Meat, fish, and seafood help you to build healthy bones, muscles, skin, and blood. Other foods can do this, too. If you don't eat meat, you need lots of beans and peas, eggs, nuts, and seeds.

## THE FIRST THANKSGIVING

Every fall, Americans eat a big Thanksgiving dinner with their families, but when was the first Thanksgiving?

A long time ago, there were many Native American people in North America. Some of these people were the Wampanoag. They were farmers, fishermen, and hunters. Their home was along the east coast of America, between Massachusetts and Rhode Island.

In the 17th Century, there were lots of people from Europe in America. They were the European settlers. Some of the settlers were from England.

The English people's home was at the top of a hill, in the middle of a large area of land. The English weren't very good at farming, so when it was winter, there wasn't any food. The English were hungry and scared. The Wampanoag people were kind to the English. With the Wampanoags' help, the English were soon good at fishing and farming.

The next year, there was lots of food for everyone and the English asked the Wampanoags to eat with them. This was the first Thanksgiving.

### 2 Listen and Read. 114

## PLANES ARE BIG AND HEAVY. SO HOW DO THEY FLY?

### Shape

Air helps a plane to fly. A plane must be the right shape for the air to move around it. The plane's body, wings, and tail help the air to move around the plane in the right way.

### Engine

The plane's engine gives it the power to take off and fly. The engine burns fuel. This makes heat. The heat pushes gases out of the back of the plane, which makes the plane move forward.

### Materials

We use special metals and plastics to build planes. These materials are very strong and very light. They help the plane to fly quickly and safely.

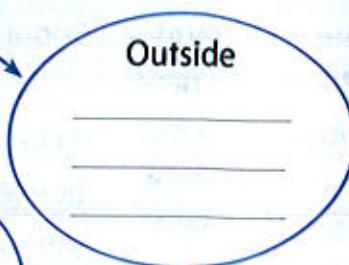

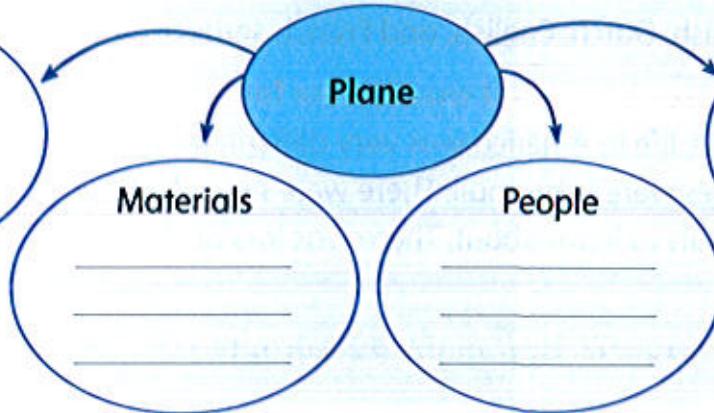

### Controls

The pilot uses lots of controls to fly the plane higher or lower, and faster or slower. The controls are in the cockpit of the plane and the pilot sits here.

Thousands of years ago, the Mayans used the bark from hamack trees to make a special kind of bed. These beds were hammocks. People used them to sit on or to sleep in. They were light and easy to carry. The Mayans often moved from place to place, and they didn't want to carry heavy things.

The Mayans lived in rainforests. The weather was hot and there were lots of bugs, so it was difficult to sleep.

Hammocks were perfect beds for the Mayans, because they weren't on the ground.

At first, only people in hot countries had hammocks, but then a man called Christopher Columbus took hammocks to Europe. Soon, sailors on ships started to sleep in hammocks, because they were soft and comfortable.

Today, Mayan people in Central America still make hammocks, and people all over the world buy them to use in their back yards or homes.

Last month, twenty students from 6th grade were on the school camping trip. TOM WALTERS tells us all about it.

Where did you stay?

We stayed in tents near a river. It was fun!

Did you have classes?

No, we didn't, but we fished every day and we learned how to make a bridge over the river, too. We used rope and wood.

Was it cold at night?

No, it wasn't. We had warm sleeping bags. It was very dark, but we had flashlights. One night, there was a noise outside. We were scared, but when we looked outside, there was only a cat.

What did you eat?

We cooked food in frying pans on a fire. Sometimes we cooked the fish from the river! One day, it rained and our matches were wet. So we started a fire with two sticks!

## What is art?

Artists make **drawings** by using a pencil or charcoal to draw a picture on a piece of paper or another smooth surface.

Artists make **paintings** by using a paintbrush to paint on a piece of paper, canvas, or other material.

Photographers make **photographs** with cameras. Photographers like to use light and shadow to make their photographs more interesting.

Artists make **collages** by gluing or taping different materials onto a surface to make a picture or pattern. You can use lots of interesting material to make a collage, such as plastic, fabric, metal, or shells.

Sculptors make **sculptures** by carving wood or stone, or by shaping clay. Some sculptors also make sculptures by joining metal, wire, or other materials together to make a shape or figure.

### 3 Think! What do you need to make each piece of art? Write the words under the correct headings. Add one more word to each column.
